**PUBLICATION CHARGES**

The Seismological Society of America requests that institutions supporting research share in the cost of publicizing the results of that research. The Editor has the discretion of waiving page charges for authors who do not have institutional support. In addition to regular page charges there is a nominal fee for publishing electronic supplements. Current rates are available at <http://www.seismosoc.org/publications/bssa/authors/bssa-page-charges.php>

**Color options:** Color figures can be published (1) in color both in the online journal and in the printed journal, or (2) in color online and gray scale in print. Online color is free; authors will be charged for color in print. You must choose one option for all of the color figures within a paper; that is, you cannot choose option (1) for one color figure and option (2) for another color figure. You cannot submit two versions of the same figure, one for color and one for gray scale. You are responsible for ensuring that color figures are understandable when converted to gray scale, and that text references and captions are appropriate for both online and print versions. Color figures must be submitted before the paper is accepted for publication.

Art guidelines are at <http://www.seismosoc.org/publications/bssa/authors/bssa-art-submissions.php>.

Will page charges be paid? Check one:

☐ **BOTH PAGE CHARGES AND COLOR CHARGES WILL BE PAID**, and all color figures for this paper will be color both online and in print. This option requires full payment of page and color charges.

☒ **ONLY PAGE CHARGES WILL BE PAID**, and all figures for this paper will be gray scale in print. Color figures, if any, will be color online.

☐ **A WAIVER OF PAGE CHARGES IS REQUESTED**, and all figures will be gray scale in print. Color figures, if any, will be color online.
